Kalat meressä

Tässä tehtävässä ollaan kalastajan matkassa. Tehtävässä tunnistetaan ja opitaan värejä sekä numeroita.

Tehtävä on tunnistaa sanallisen ohjeen mukaan **OIKEA MÄÄRÄ, OIKEAN VÄRISIÄ** kaloja. Lue ohje ääneen kohdehenkilölle hitaasti, korostaen niitä sanoja jotka ovat tehtävän suorittamisen kannalta oleellisia.

Tehtävän lopusta löytyy myös kuvallinen ohje, mikäli sanallisen ohjeen seuraaminen on liian vaikeaa tai kuvat muutoin tukevat sanallista ohjeistusta.

Laminoi vastaus-sivut. Leikkaa ja laminoi kuvakortit. Lisää pala tarranauhaa tyhjiin ruutuihin vastaus-sivuille. Lisää vastapuoli tarranauhasta laminoitujen kuvakorttien taakse. Voit käyttää myös sinitarraa.

Kun vastaus-sivu on laminoitu, niin oikean väriset kalat voi myös ympyröidä “white board”-tussilla, jolloin tussin jäljen voi pyyhkiä pois. Tällöin kuvakortteja ei tarvitse erikseen käyttää.

Oppimisen iloa!
